

Compatibility Matrix

Core dependencies

System	Status
FiveM / OneSync	Required
<code>oxmysql</code>	Required
<code>ox_lib</code>	Required
QBCore	Supported
ESX	Supported

Inventory

Inventory	Crafting bridge	Automatic installation
<code>nord_inventory</code>	Recommended Nord ecosystem path	Yes
<code>ox_inventory</code>	Supported	No — manual
<code>qs-inventory</code> / <code>qs_inventory</code>	Supported	No — manual
<code>qb-inventory</code>	Supported	No — manual
ESX inventory	Limited/basic bridge	No — manual

The important distinction is that **runtime compatibility and automatic installation are not the same feature**. The auto-installer is intentionally Nord Inventory-only.

Target

- `ox_target`
- `qb-target`
- `qtarget`
- automatic detection

Notifications / Text UI / Progress

- `nord_textui`
- CodeM Supreme Notification
- `ox_lib`
- QBCore notifications
- ESX notifications
- `qb-progressbar`
- built-in/fallback progress behavior

Nord ecosystem

- `nord_staff` — Admin Studio integration.
- `nord_crime` — organization access integration.
- `nord_vip` — optional crafting mission/pass XP integration.
