# Product Tebex Setup

# Product Tebex Setup

To sell a product through Tebex:

1. Open the product editor.
2. Set **Payment** to `Tebex`.
3. Enter the correct **Tebex Package ID**.
4. Configure the product license type and duration.
5. Make sure checkout is enabled.
6. Configure the workspace Tebex Bridge.
7. Publish a release with a file.
8. Publish the product.
9. Test checkout and webhook activation.

After a valid payment webhook, Nord Forge can automatically associate the product with the customer's Forge Key.
