Notify & Text UI Exports

Notify & Text UI Exports

Use Nord bridges without binding your integration to the NUI implementation.

Applies to: `Nord Inventory v2.0.0`

Server notify:

```
exports.nord_inventory:Notify(target, message, kind, duration, title)
```

Server TextUI:

```
ShowTextUI(target, text, options)
HideTextUI(target)
ShowTextUIEntry(target, id, data)
HideTextUIEntry(target, id)
```

Bridge provider selection is controlled in `config/bridges.lua`.
