Lockpick

Lockpick configuration:

```
Config.Lockpick = {
    Enabled = true,
    Item = 'lockpick',
    DurationMs = 6500,
    Difficulty = 4,
    BreakChanceOnFail = 35,
    AlarmChanceOnFail = 70,
    AlarmChanceOnSuccess = 15,
    GiveKeysWhenKeysFoundInside = true,
}
```

The configured inventory bridge validates and removes the item when required.

Command:

```
/lockpick
```

Developer client export:

```
exports.nord_vehiclekeys:StartLockpick(vehicle)
```
